

Please fill out the blue fields

## IR workflow

Name/ group				phone	e-mail		date
Sample number				BET surface area			
Chemical composition				harmless	irritating	combustible	toxic
				air sensitive	moisture sensitive		
Short abstract							
motivation / pretreatment / feed / temperature / heating ramp							
Date / Deadline for							
Signature of groupleader							
Spectrometer/cell (will be filled out from operator)					remarks		
DRIFTS		low temperature cell					
		high pressure cell					
Transmission		low temperature					
Varian		desorption cell					
		high pressure cell					
ATR							
Probe molecule							
Additional:							
Name of Operator						Date
